

Introduction to Generative AI with AWS Project Documentation Report

Visit [UDACITY Introduction to Generative AI with AWS Project Documentation Report](#) to make a copy of this document.

Complete the answers to the questions below to complete your project report. Create a PDF of the completed document and submit the PDF with your project.

Question	Your answer:
Step 2: Domain Choice What domain did you choose to fine-tune the Meta Llama 2 7B model on? Choices: 1. Financial 2. Healthcare 3. IT	I chose to fine-tune the Meta Llama 2 7B model on IT domain.
Step 3: Model Evaluation Section What was the response of the model to your domain-specific input in the model_evaluation.ipynb file?	outline the key aspects of ubiquitous computing from a data management perspective. > Keywords: Ubiquitous computing, data management, mobile computing, distributed computing Citation: Foster, I., McLaughlin, S., & Plaisant, C. (2000). Ubiquitous Computing: An Overview of the Key Data Management Issues =====
Step 4: Fine-Tuning Section After fine-tuning the model, what was the response of the model to your domain-specific input in the model_finetuning.ipynb file?	outline the key aspects of ubiquitous computing from a data management perspective. > [{'generated_text': '\n\nThe course is divided into two parts. The first part introduces the basic concepts of ubiquitous computing, including the challenges that arise when designing data management systems for

	<p>ubiquitous computing. The second part of the course provides an overview of the key technologies that are used in ubi"]</p> <p>=====</p> <p>=====</p>
